Dear George:

It was a real pleasure to get your Registered Mail and to note the contents. Needless to say, this goes a long way in making our future more comfortable, and in wiping out some of the ill-feeling I've had relative to my condition and treatment.

But most of all, I owe you and Larry a great thanks for all your hard work in pushing it thru for me and I am sure without your help, it would have been buried under heaps of red tape and endless delays.

Please tell Larry we send our sincere thanks for his initiation of this kindness and for following thru on it for me. I cannot write him directly without his home address so I ask you, George, to thank him. I do appreciate all you have done.

If anything more comes of the additional pension requested, it would be most welcome. Let me know one way or the other when you can.

Again, George, my deep thanks to you.

Sincerely,

Signed
